BCaBA Examination Pass Rates for Approved Course Sequences: 2013-2015

Note: Annual data are not reported for (a) course sequences within their first 4 years of operation or (b) course sequences with fewer than 6 first-time candidates during the year. Candidates are included in a course sequence's pass-rate data if they used only coursework from that sequence to meet the eligibility requirements for certification. Combined data are reported for course sequences that had too few candidates in each year, but 6 or more across a 2-year period. The notice of publication of these data was given in the February 2013 issue of the *BACB Newsletter*.
